"It's hot!"
"We need some rain!"

"I know rain comes from clouds."

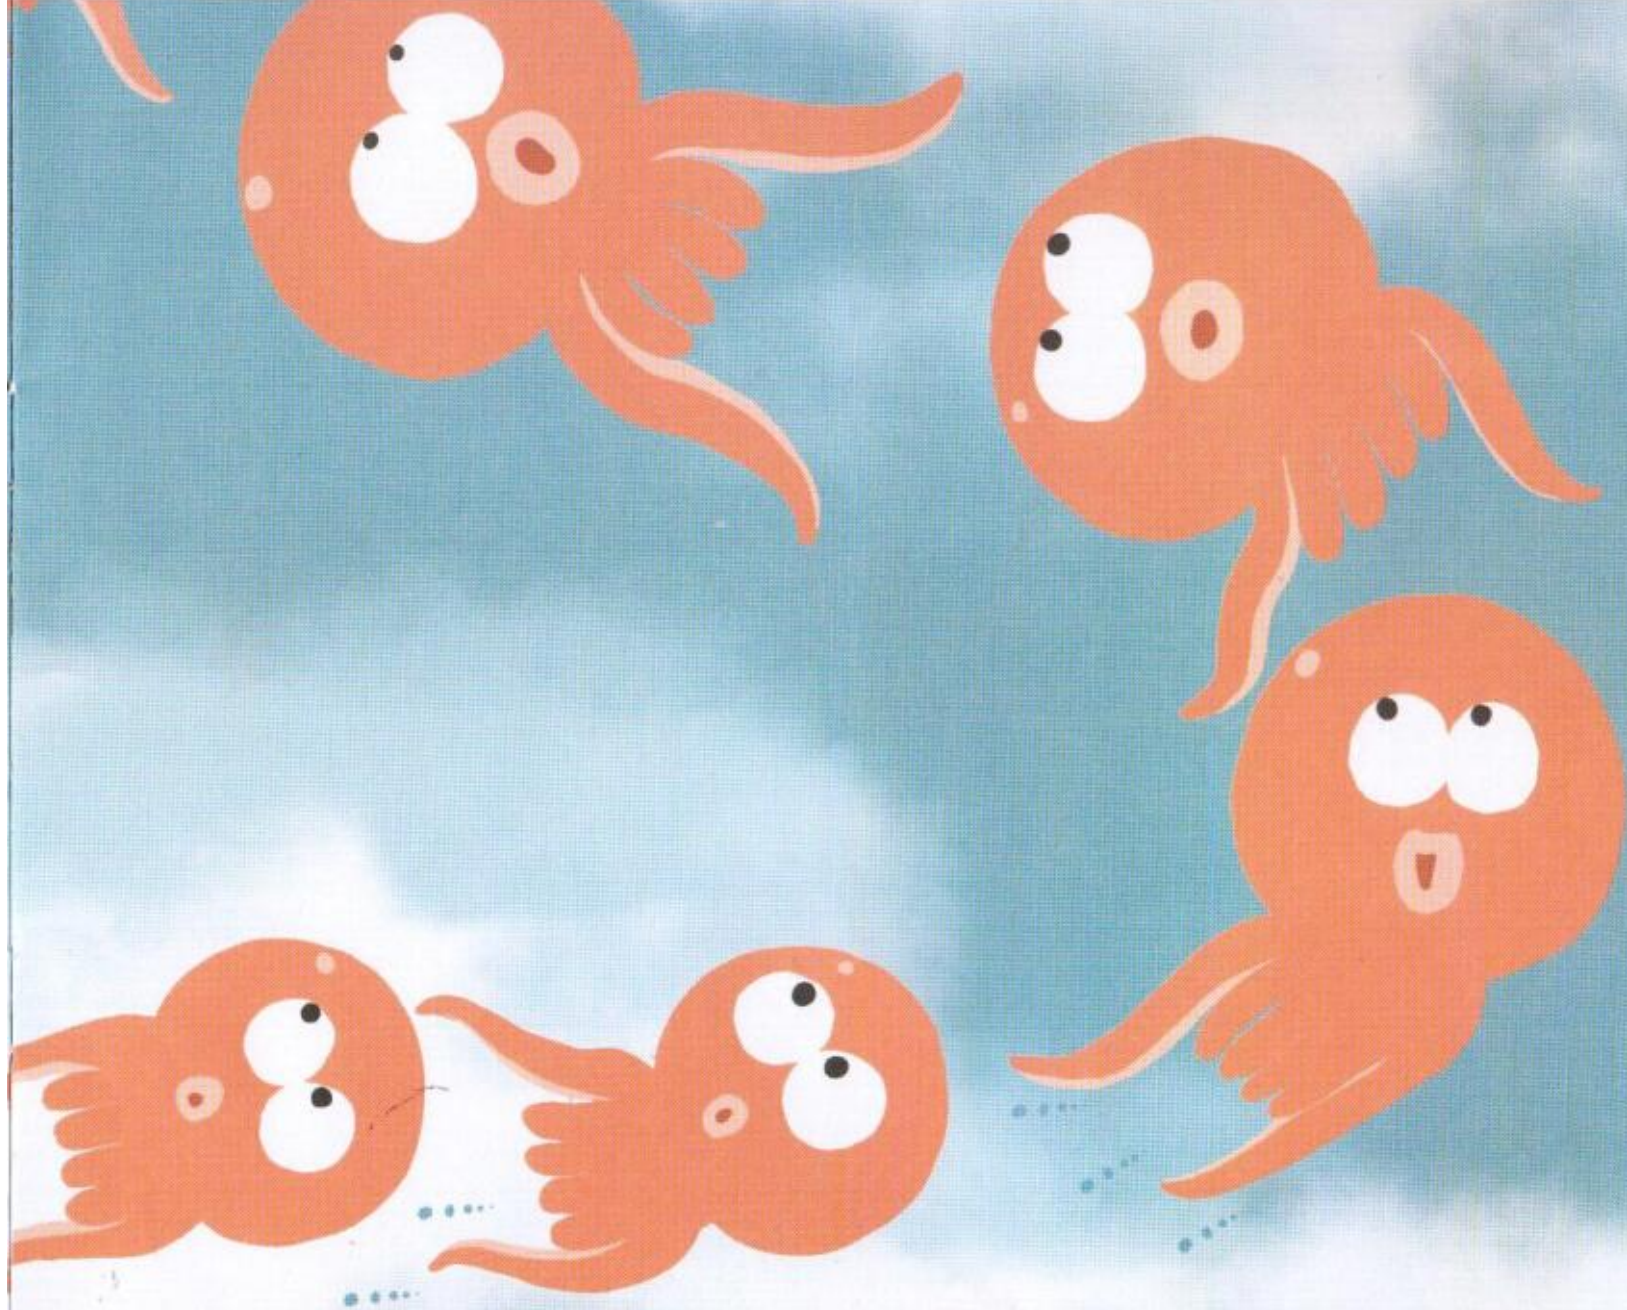

One, two, three...

Sorry, no rain!

Five cuttlefish
dig, dig, dig.

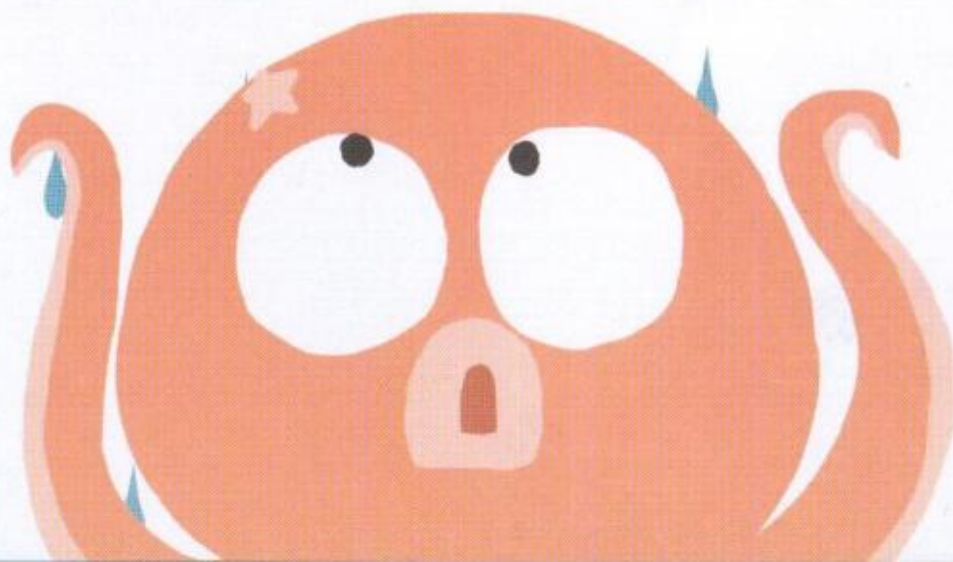

Sorry, no rain!

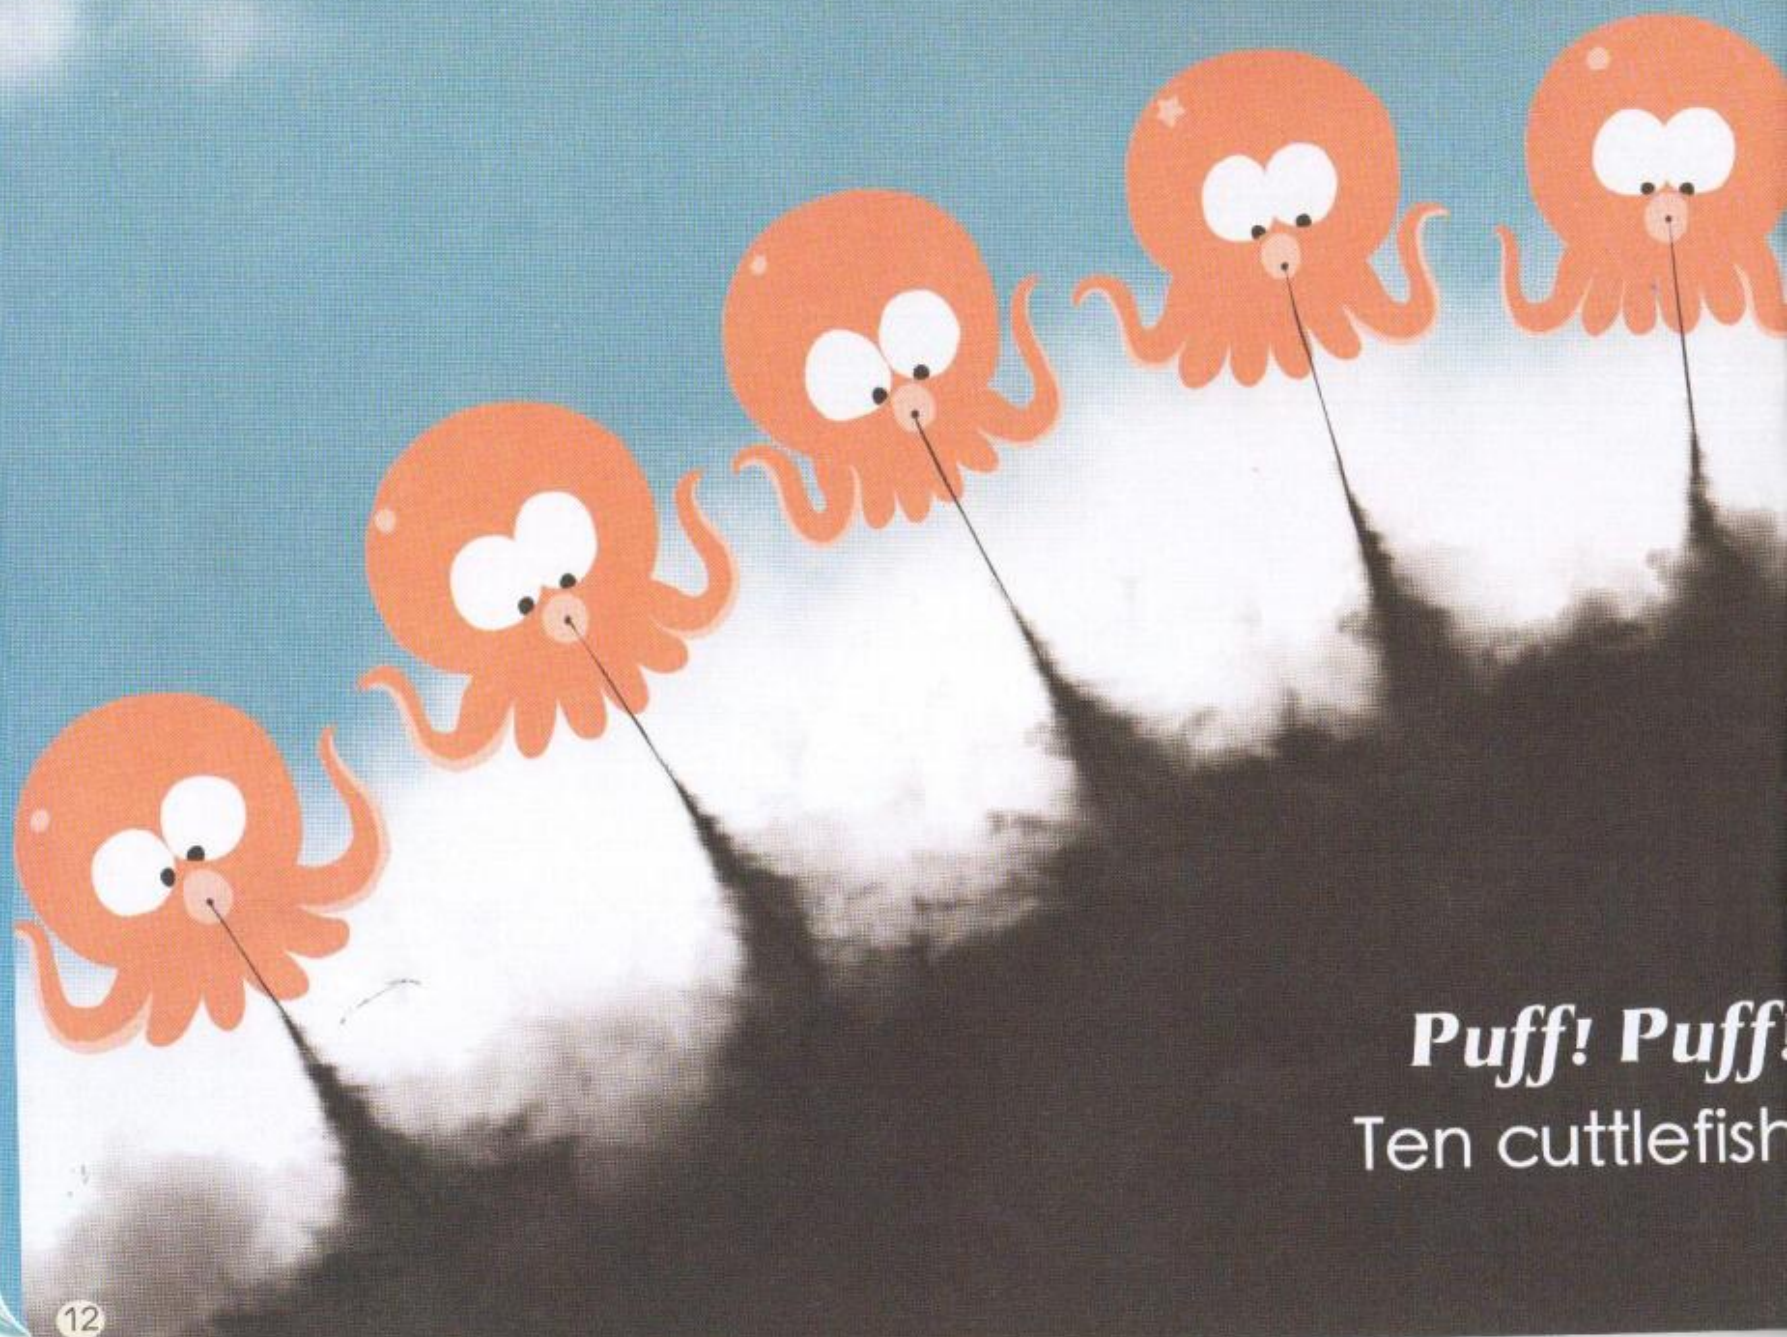

A group of eleven cartoon octopuses, colored in a vibrant orange-red, are arranged in a loose circle against a background of soft, white clouds. Each octopus has large, white eyes with black pupils and a small, pinkish mouth. Their expressions vary: some look surprised or excited with wide eyes, while others appear sad or thoughtful with downturned mouths. The octopuses are of various sizes and are positioned at different angles, creating a dynamic and engaging scene.

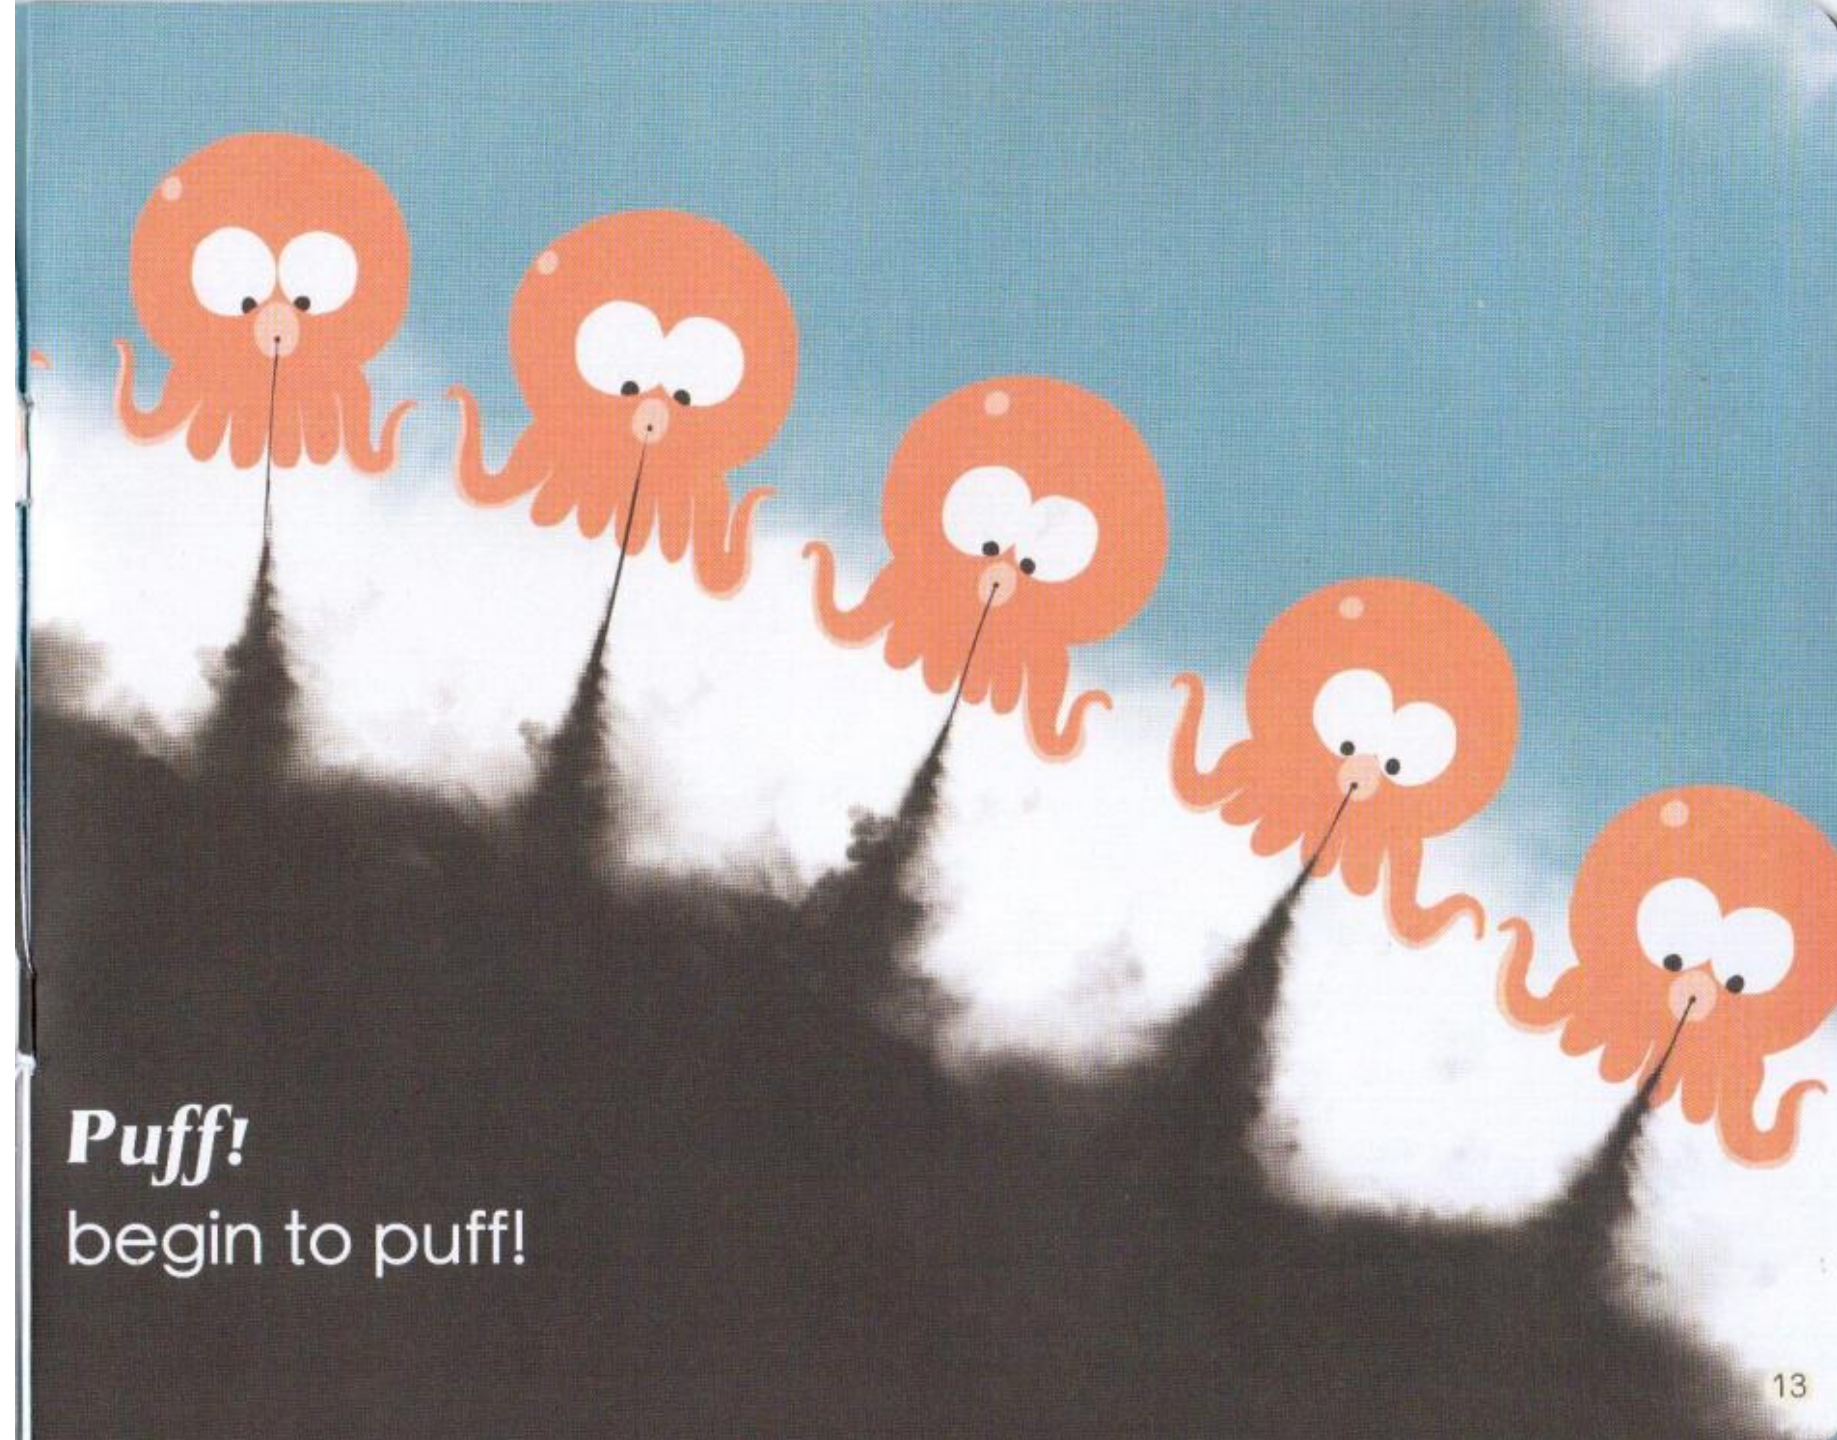

“What can we do?”

“Rain comes from black clouds!”

Puff! Puff!
Ten cuttlefish

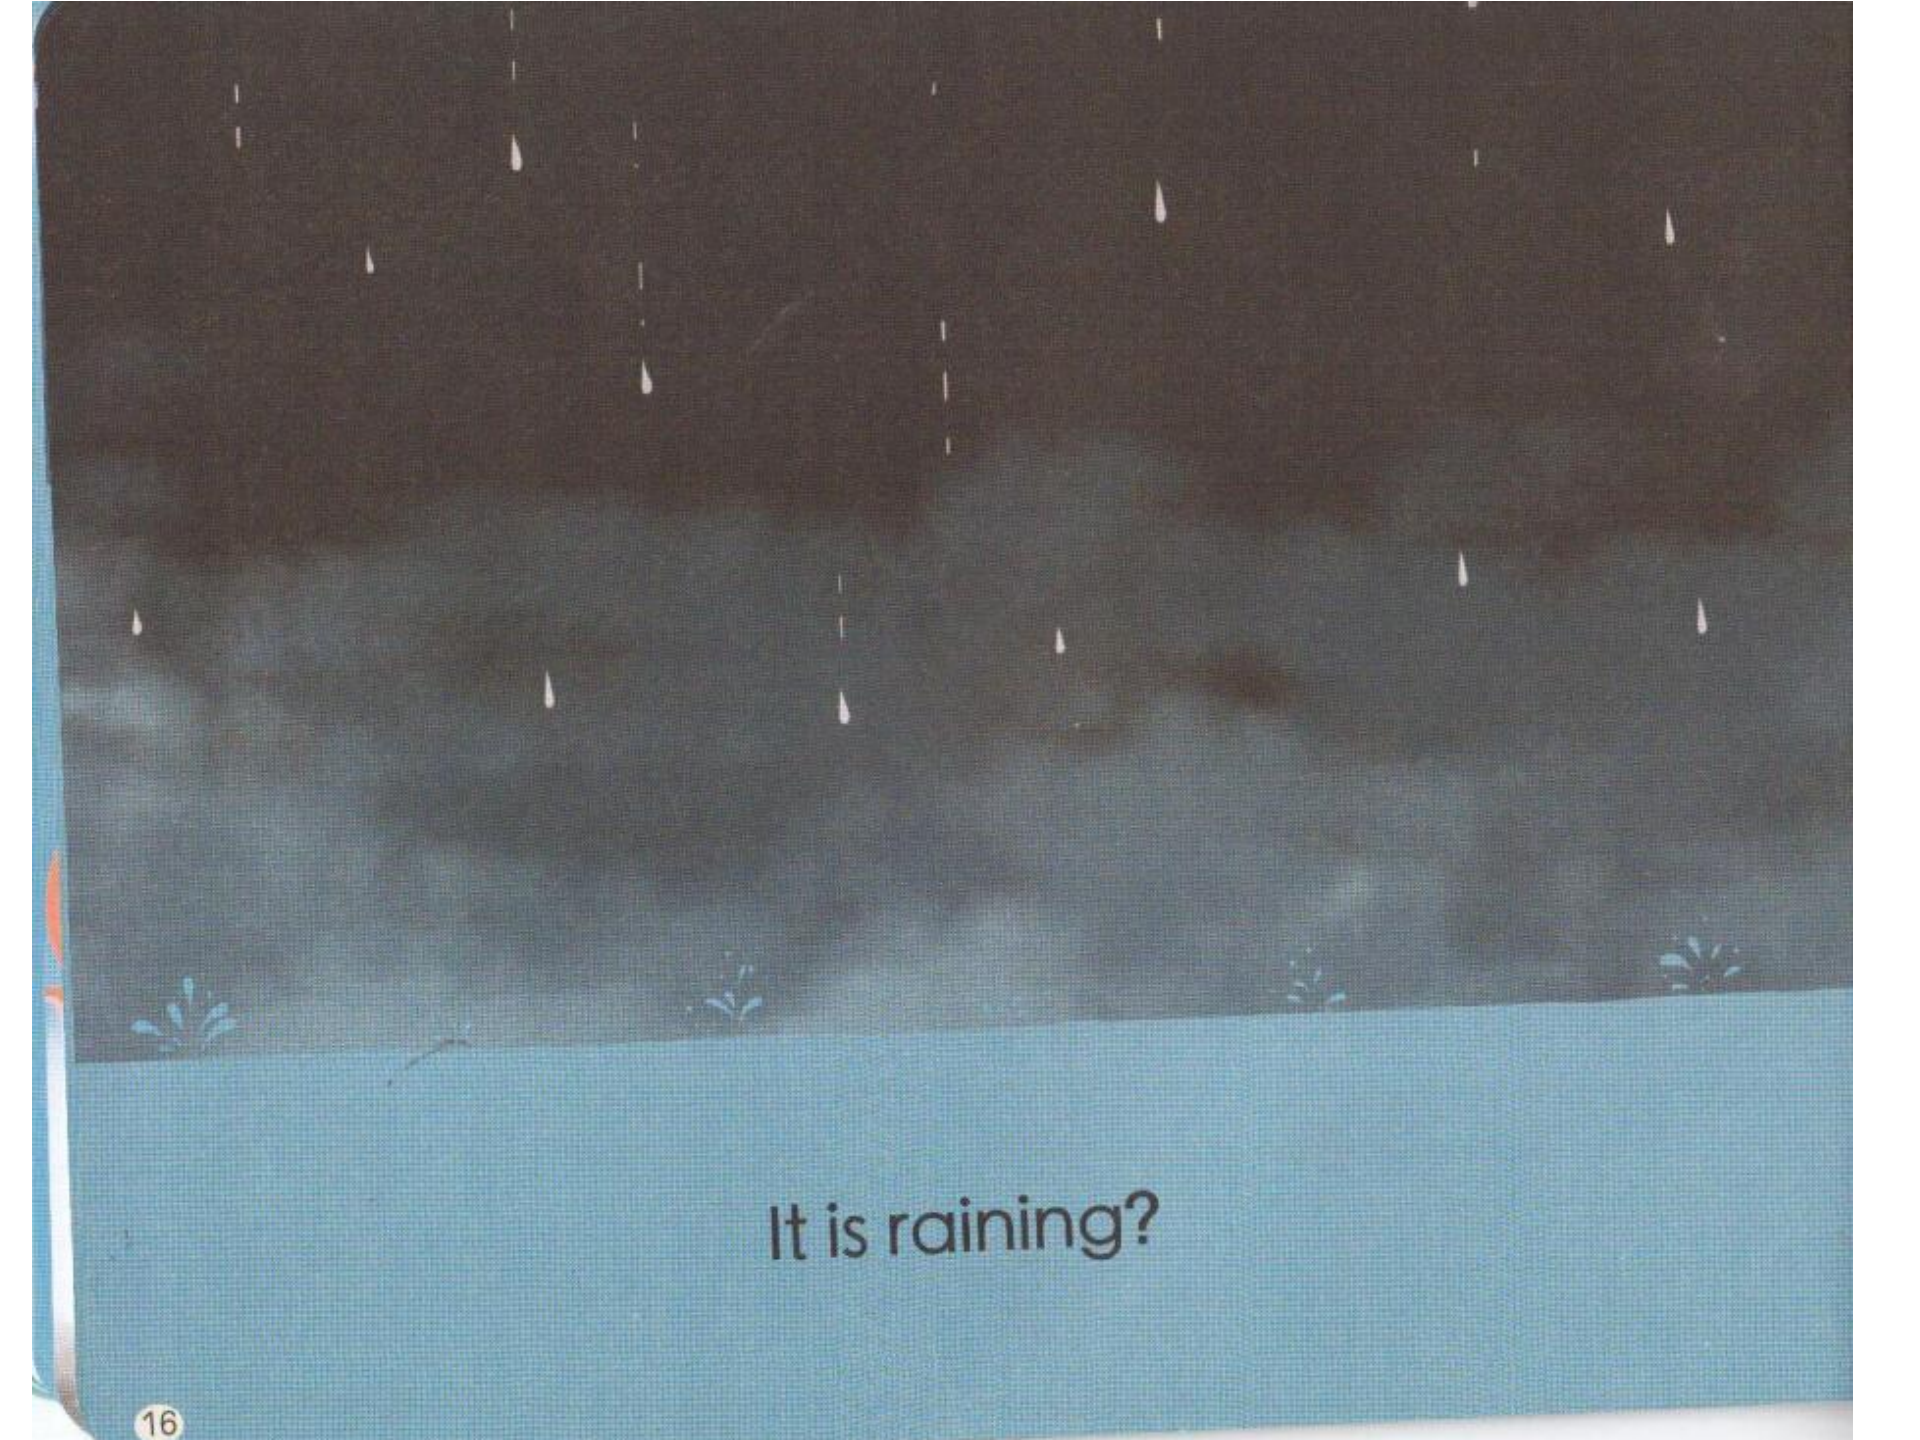

Puff!
begin to puff!

“Look! Black

clouds!”

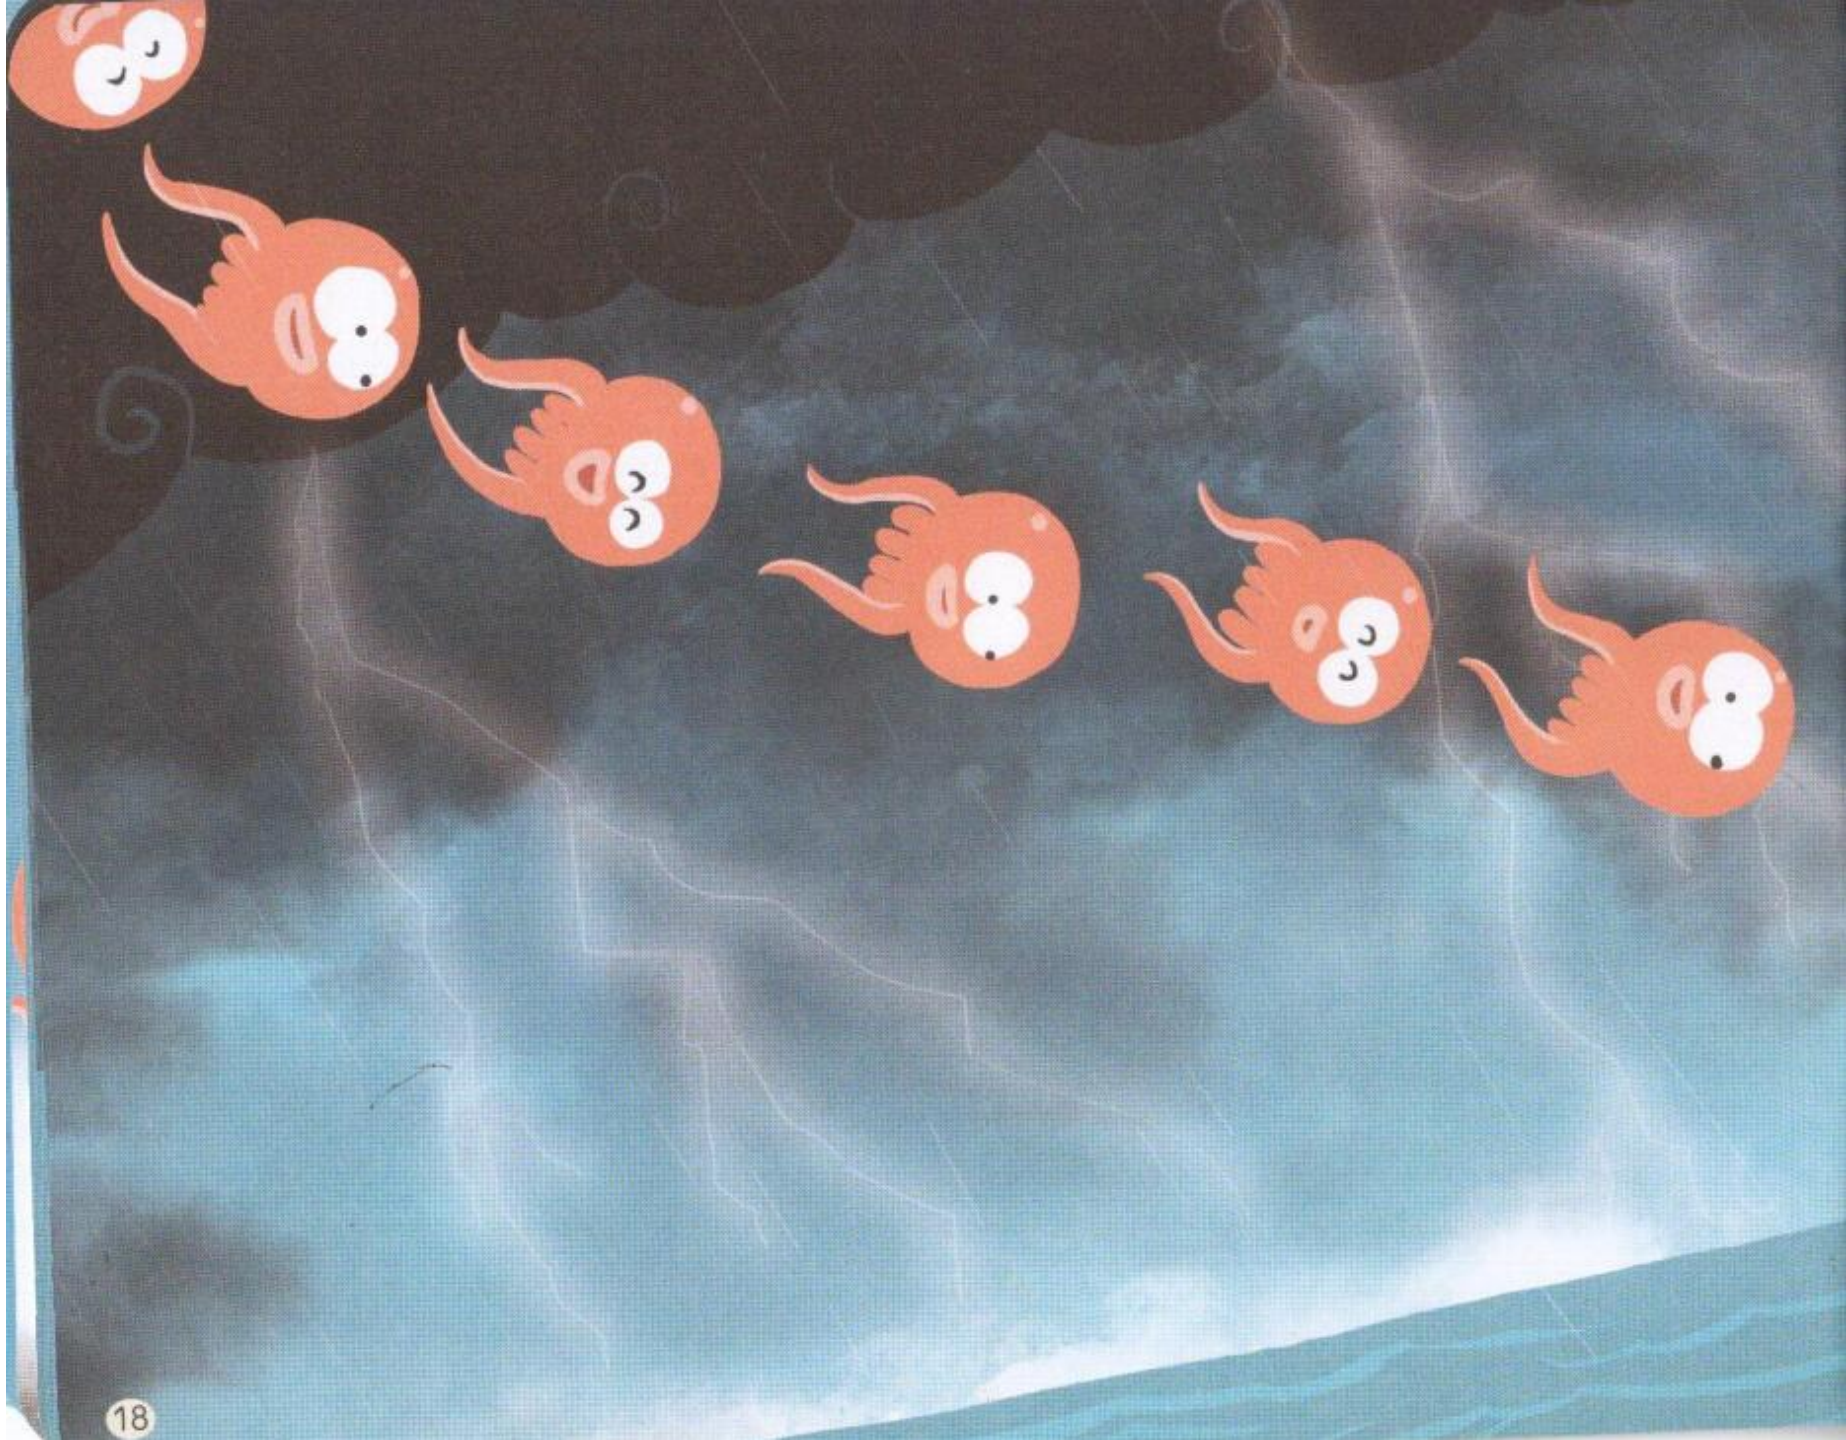

An illustration of a rainy scene. The top half of the image is a dark, textured sky with numerous white raindrops falling. Below the sky is a layer of dark, misty clouds. The bottom half of the image is a solid light blue ground. Along the horizon line, there are several small, stylized green plants. The overall style is simple and illustrative.

 家长可以用一些小游戏来帮助孩子巩固对数字的掌握，比如，用手指表示数字，让孩子说一说对应的英文。
